Nationally Renowned Performing Arts Program

Our School of Performing Arts has a far-reaching reputation for the outstanding professionalism of our productions and performances, the success of our Alumni and the quality of our Performing Arts specialist teachers.

Our ensembles have contributed significantly to many national and international events over the past two decades. Our biennial musical productions are the envy of local schools, and theatre companies showcase our outstanding performers.

Our comprehensive performance program is dedicated to excellence. Through orchestras, ensembles, rock bands, choirs, cheerleading, dance companies and drama, we nurture talents, practise to perfection and create unforgettable experiences for every student.

The program offers many solo opportunities, recitals, small ensembles and large event performances. Our students are proud to showcase the skills they have developed as they flourish in the performing arts.

The core of the School of Performing Arts is the tuition program where students from Prep to Year 12 have the opportunity to participate in group and private instrumental, vocal and dance lessons weekly. An extensive co-curricular program supports this.

All tuition, activities and rehearsals are held in dedicated facilities, including classrooms, individual rehearsal studios, and a theatre and dance studio.
